Baker Considers Invoking the Draft Law When Coal Miners Ignore The Sick-Bed Plea of the President For Arbitration

Labor Threatens General Strike If Anti-Strike Bill is Passed

INDUSTRIAL TURMOIL FACING THE NATION; CABINET IN SESSION

Quick Action by Federal Government is Deemed Necessary If Miners Are to Be Kept at Work.

OPERATORS AGREE TO ARBITRATE AT REQUEST OF MR. WILSON

Samuel Gompers and 111 Union Presidents Plan to Descend on Congress to Fight Cummings Bill.

(International News Service.)
WASHINGTON, Oct. 25.—President Wilson's cabinet, meeting in special session today, agreed upon a definite policy for meeting the nation-wide strike of coal miners on November 1.
"There will be no wabbling on the part of the government," one of the members of the cabinet stated after the meeting, which lasted for about two hours. The cabinet adjourned to meet again this afternoon at 4:30. The policy adopted by the cabinet will be submitted to the president in the meantime. At the meeting later this afternoon the cabinet will be informed what the president thinks about the plan.
It was stated at the White House that following the second session of the cabinet a statement will be issued to the public either by the president himself or by the cabinet. No steps for government operation of the mines were discussed by the cabinet. It is understood the discussion centered on what action the government will take for the miner's failure to live up to the contract made for the duration of the war.

(International News Service.)
WASHINGTON, Oct. 25.—With the nation face to face with a nation-wide coal strike, a hurried call went out today for a special meeting of the cabinet. Rejection by the miners of President Wilson's plea for arbitration, disposed of all hope of averting the strike through negotiations. Quick action by the federal government was today the only hope of keeping the miners at work. Secretary of War Baker had before him today a demand that he invoke the draft law in order to keep the coal mines in operation. It was expected that this would be laid before the cabinet.

(International News Service.)
WASHINGTON, Oct. 25.—Organized labor today is planning a general strike. The first step in this movement was taken today when Wm. H. Johnson, president of the International Machinists union, declared that 350,000 members of his organization will walk the minute the senate passes the anti-strike clause in the Cummings bill for the return of the railroads. The strike is being de to hinge upon this anti-strike clause. Samuel Gompers and president of 111 international unions, will march on congress to make a threat of a general strike if the Cummings bill is passed, it was learned at the headquarters of the American Federation of Labor here today. The 3,600,000 workers of the American Federation of Labor will refuse to work if the anti-strike clause is adopted.

Congress stood ready today to make a decision in enacting legislation to prevent the impending industrial disaster. Both sides in the coal to controversy were obdurate to each blaming the other for the situation of President Wilson's plea negotiations. The operators were willing to accept the President's plan in entirety and begin negotiations even if necessary with reservations. President Wilson's sick-bed appeal was: I have been watching with deep and sincere interest your efforts to bring about a just settlement of the differences between the operators and the coal miners in the bituminous coal fields of the country. It is to be hoped that a good judgment that has been exercised by both operators and miners in years gone by in the adjustment of their differences will again prevail in the present crisis. All organized society is dependent upon the maintenance of the fuel supply for the continuance of its existence. The gov-

ernment has appealed with success to other classes of workers to postpone similar questions until a reasonable adjustment could be arrived at. With the parties of this controversy rest the responsibility of seeing that the fuel supply of the nation is maintained. At this time when the world is in need of more supplies, it would be a cruel neglect of our high duty to humanity to fail them. I have read with interest the suggestion made by you that the wage scale committees of the operators and miners go into conference without reservation for the purpose of negotiating an agreement as though no demands had been made, having due regards to the interests of their respective groups. I am in accord with that suggestion. No body of men knows better the details, intricacies and technicalities of mining than do the miners and operators. No body of men can work out the details of the

NOLLEAU ELECTED AS SECRETARY OF LOCAL Y. M. C. A.

At a meeting of the committee of management of the local railroad association, W. G. Nolleau, of St. Louis, was called to succeed Dr. H. R. Thompson as general secretary of the local Y. M. C. A. Dr. Thompson who has been general secretary of the local institution since 1917, and who was given a leave of absence indefinitely to promote the Railroad Y. M. C. A. at Sheffield has recently severed his relations with the local organization, the result of which necessitated the election of a new secretary.
Sylvester Blair, who has been acting secretary in the absence of Dr. Thompson, and who has been assistant secretary for several years, will remain as assistant until he can be placed in some other railroad association by G. K. Roper Jr., railroad secretary.
Mr. Nolleau, who is to succeed Dr. Thompson, got his association training in St. Louis and has been secretary in the transportation department of the war work council, riding troop trains to and from the New York harbors with the soldiers in transit. Mr. Nolleau comes highly recommended by Mr. Roper.

TROOPS WILL BE USED TO PROTECT MARINE WORKERS

(International News Service.)
NEW YORK, Oct. 25.—Renewed efforts by Mayor Hyland to end the longshoremen's strike having collapsed, it was reported today that officials of private shipping companies would ask Governor Smith for state troops or Secretary of War Baker for regulars to protect the strikers who wish to return to work.
According to representatives of the U. S. Shipping board, about 4,000 or 5,000 strikers are willing to return to work but were intimidated by the insurgent faction in the unions, which is holding out for a bigger wage award than had been recommended by the national adjustment commission.
While the congestion grows, the disensions in the ranks of the longshoremen's union have been widened by the action of President O'Connor in issuing an order suspending the charters of three locals. The strike has been in effect 19 days and nearly 3,000,000 tons of freight has been tied up, including much food.

Cotton Sells For 47.5 Local Market

Cotton went to a new high level on the local streets yesterday when Hughes and Tidwell, prominent supply firm, paid 47.5 a pound to John Montgomery, a negro, of East Albany. Montgomery's cotton was of an extra good variety and was grown in the east end of the city. Many other sales at 37.5 were recorded over the city.

ALBANY WINS OVER SHEFFIELD, BOOSTS LOCAL'S CLAIM TO HIGH SCHOOL TITLE

Purple and Gold's Aerial Attack Again Proves Opponent's Undoing.

ENTIRE TEAM PLAYS "JAM-UP" FOOTBALL

Contest is Bitterly Contested by Both Sides, Wrangling in Evidence.
Sheffield high school was eliminated from the race for the gridiron championship of North Alabama high schools yesterday when the nitrate city team went down in defeat before the aerial attack of Coach Templeton's Purple jerseyed squad from the Albany high, 13 to 0.

The game was hard fought by both sides and despite the fact that Albany kept the ball in Sheffield's territory most of the time, the visitors never lost their air of confidence and time after time neglected to punt when a punt probably would have kept them momentarily out of danger.

Gustin, former Decatur boy, now a half on the Sheffield squad, starred for the visitors, making frequent long gains on end runs. His costly fumble, however, in the second quarter, paved the way for Albany's first touchdown.

For Albany, Carr, Alexander and the entire team played jam-up football. On several occasions the Albany line held while Alexander took his own sweet time in picking his man to receive a forward pass. The breathing spell granted by the line aided the backs and ends greatly in perfecting the passes, which finally led to Sheffield's defeat. Both of the local touchdowns were made on successfully completed passes. The visitors did not seem able to break up the Purple and Gold aerial attack at any stage and Alexander's pass of 30 yards to Royer in the third quarter was the most spectacular play of the game.

First Quarter
Albany kicked off to Sheffield and Sheffield ran the ball back 15 yards. On the first line up on the line of scrimmage, Carr broke through the Sheffield squad and tackled for a loss. Tarpey repeated the performance on the next play. Sheffield attempted a forward pass but failed.

Albany lined up with the ball and on a short pass to Carr, the new star of the local high, who played his first game yesterday, shook off tackler after tackler and went for a touchdown but was called back, an Albany lineman being off side. Albany was penalized five yards. Albany continued the aerial attack and Tarpey gained 20 yards. Another to Carr netted 20 more but again Albany was penalized for offside.

The Albany team kicked strenuously against the referee but Coach Templeton held their noses to the grindstone and kept them at work.

Sheffield's ball on her own 40 yard line. Sheffield made her first gain on a sweeping end run. A few line bucks netted several yards more, but Sheffield was penalized 5 yards for offside and the quarter ended with the ball where it started.

Albany opened the second quarter by suffering another penalty for offside. Then to add to the Purple and Gold's hard luck, Alexander fell in attempting to get away for an end run and was tackled behind the line of scrimmage for a loss. Albany punted, but Sheffield fumbled and Albany recovered. Albany's ball. Alexander gained 10 yards through the line. Carr added another 5 in the same place. Albany fumbled. Sheffield's ball.

Gustin tore off 20 yards around end. Alexander ripped the Sheffield line and tackled Gustin for a loss. The

Hands of Clock Turn Back an Hour Sunday

(International News Service.)
WASHINGTON, Oct. 25.—Turn back your watches and clocks one hour Sunday morning, Oct. 26, at 2 a. m., if you are up at that hour. The railroad administration issued this statement to the public today: "Regular train schedules will be held to conform with the time change, beginning Sunday."

STATE WILL VOTE ON ISSUING ROAD BONDS IN SPRING

A. G. Patterson, recently appointed the member from the Eighth congressional district of the new state highway commission, returned last night from Montgomery, where he attended the organization of that body. At this meeting, Senator John A. Rodgers, of Sumpter county, was elected chairman, and W. S. Kellar was re-elected as state highway engineer.

In discussing the meeting today, Mr. Patterson stated that the commission made preliminary plans for conducting a vigorous campaign in the interest of an amendment to the state constitution, which would authorize the issuance of \$25,000,000 in good road bonds. The date of the election has not been determined, but will be fixed by Governor Kilby. It is understood that the election will probably be held during next February.

"The amendment to the constitution which will be submitted to the people will provide for the issuance of bonds in the sum of \$25,000,000 by the state," Mr. Patterson said. "These bonds, however, will not be issued in a lump sum, but only as the money is needed to match the appropriations of the federal government for road building. At present the state is lacking the necessary financial resources to take advantage of the government money, which is given only on condition that the state appropriate dollar for dollar. After the bonds are authorized—and I believe they will be—the highway commission will offer for sale only sufficient bonds to meet any available government money, so that it will perhaps be many years before the entire issue is placed on the market. Interest will be thus paid only on the money actually needed for road construction. To take care of the interest on these bonds, and to provide a sinking fund for their retirement when due, the last legislature levied an automobile tax. Eighty per cent of this tax goes to the state, 20 to the municipality in incorporated towns, and to the county where the owner of the car resides without the corporate limits. This shifts the entire burden of building a system of public highways in Alabama to the owners of motor vehicles—who are willing to stand the cost.

"The good roads laws, under which the commission works, provides further that a system of trunk highways shall be built by the state, and that these highways shall connect the respective county seats, the commission being required to designate the most feasible and practical route."

WYATT TO ERECT BRICK BUILDING ON 2ND AVENUE

Harry Wyatt, well known Albany business man, today announced the purchase from Whitton & Steed, of the lot on Second avenue opposite the new Princess Theatre. The consideration was not made public, but is said to have been a fancy one. Mr. Wyatt will within the next ten days begin the erection of a brick and stone business house on the newly acquired lot, which will be ready for occupancy by January 1, and sooner if possible.

CONSTRUCTION PLANS SEEK COMPLETION BY JANUARY 1, 1919, PLAN ELECTRIC LINE

C. E. Frost Heads Company Which Files Incorporation Papers in Court House
METHOD OF RAISING FUNDS IS OUTLINED
Proposal for Building Bridge Made by Dean and Associates.

Construction of a bridge across the Tennessee river, at a point within the incorporate limits of Decatur-Albany to be chosen by government engineers, within the next year, is the ultimate object of the Limestone-Morgan Bridge company, incorporation papers for which were filed in the Morgan county probate court late yesterday afternoon.
The minimum capital stock of the company is \$2,000 and is paid in. The incorporators are: C. E. Frost, of Athens; S. W. Irwin, of Decatur; Will J. Wyker, of Decatur; A. Polytsky, of Hartselle; Lamar Penney, of Albany; L. O. Stout, of Decatur. Officers are: C. E. Frost, president; S. W. Irwin, vice president; W. B. Shackelford, secretary-treasurer; S. A. Lynne, attorney.

The organization of the company is the result of conferences for more than a week between persons interested in the construction of a bridge here and local citizens. The Limestone-Morgan Bridge company was formed for the primary purpose of making a contract for the construction of the bridge.

The plan of the campaign for the bridge was outlined by officials of the company today as follows:
Contract will be entered between the company and a syndicate composed of interested capitalists, under a proposal made by Col. L. A. Dean, acting as attorney for a syndicate composed of Calvin Tichenor, Wm. M. Torrance, H. C. Boggs and Col. Dean.

Stock will be sold in the company, the salesmen getting 5 per cent of the sales. As the capital is paid in it will be deposited with the treasurer, Mr. Shackelford, until such time as sufficient money is on hand to begin work. At that time the capital stock of the bridge company will be increased to absorb the funds on deposit. Should the plan fall through subscribers to stock stand a chance of losing only 5 per cent of their investment. Out of their proceeds, the salesmen of the stock bear all expenses of the sale.

To Have Interurban Line

(Continued on page four)

TRIXIE WENT TO SLEEP ON JOB; HER OWNERS GET LABOR SENTENCES

Fice Dog, Expected to Warn Wildcatters, Slumbered While Officers Approached.

Because "Trixie"—not the famous dog by the same name that made the trans-continental air trip with Lieut. Maynard, but a common fice that was the friend of man down in Cullman county—went to sleep on the job, two white men, Henry Shumaker and Sid Hogue, were caught red handed in the act of making white liquor, and were given fifteen months prison sentences by the Cullman county circuit court, which completed the criminal docket yesterday, Judge O. Kyle presiding.

The story of Trixie's faithlessness was told here today by Solicitor D. C. Almon, who had a big run at Cullman, convicting eleven persons of the manufacture of liquor and two of perjury—an even 100 per cent.

The wild-catters were giving their entire time to their still out at Battle Mountain, near the Morgan county line, when two officers stealthily approached, Solicitor Almon said. The men did not note their presence, as they were relying on the sharp ears and the treble voice of Trixie to warn them. But Trixie was asleep, and did not wake up until her human friends were under arrest. Then she bristled down the mountain side, yelping at the top of her voice. One of the men greeted her with a surly "D—n you, if you hadn't gone to sleep on the job we wouldn't have been arrested."

During the sessions of the circuit court at Cullman, Solicitor Almon also secured the conviction of Jim Williams, on a charge of perjury. This was the last conviction resulting from the murder of Spence Higgins by Doyle Hooton in 1912. Hooton was sent up for murder, another man for bribery and Williams was the fourth convicted of perjury. This ends one of the most remarkable criminal cases in the history of North Alabama.

Entered as second-class matter February 26, 1912 at the postoffice at Albany, Ala., July 1, 1917, under Act of March 8, 1879.

THE DAYLIGHT SAVINGS LAW PASSES; ITS EFFECT ON THE MINERS

With the passing of the Daylight Savings law, which having served its time has been shunted aside by the American congress, regardless of the protests of President Wilson, it is almost amusing to note that the strongest advocates of its repeal were the coal miners. The men who dig the black diamonds from the bowels of the earth contended that the law imposed a hardship, in that it forced them from their downy couches at too early an hour in the morning, a statement that appears almost ridiculous in view of the threatened nationwide strike of the miners for a six hour day and a five day week. Should this demand be granted, whether before or after a general walk-out, it would seem that there would be daylight enough left for the miners to perform their chores, and that their enjoyment of the remaining 138 hours of the week would not be especially marred by a few early morning cobwebs stretched across their eyes. On the other hand, the contention of the friends of daylight savings that it resulted in increasing the nation's coal output 1,250,000 tons annually also seems unworthy of consideration, in view of the apparent determination to reduce coal production on the very eve of winter. Despite its unpopularity, the Daylight law served a good purpose during the war. It did its bit for the overthrow of militarism; and perhaps would receive a healthy vote if the issue of its repeal should be submitted to a referendum. Its passing is just another tribute to the immutable laws of nature, on which man has so far failed to improve. The human being still prefers to set his clock by the sun.

THE PUBLIC GROUP REPORTS TO WILSON

INDUSTRIAL CONFERENCE WAS NOT IN VAIN, DECLARES BARNEY BARUSCH.

(International News Service.)
WASHINGTON, Oct. 25.—The U. S. expects the Mexican government to secure the safe return of William C. Jenkins, American consular agent kidnapped by Mexican bandits, even though the Mexican government has to pay the ransom demanded by the bandits. This message was forwarded to the Mexican government today by the state department. Information received at the state department disclosed the fact that Jenkins is being held by bandits. A representative of Jenkins is understood to be in communication with the bandits.

Safe.
Mrs. Green—"So your husband is in trouble again?" Mrs. Jones—"Oh, no! He is out of trouble now. He's in jail."

President Wilson had before him a report urging that he establish a commission to carry on the work started by the industrial conference. The accomplishments of the industrial conference, as outlined by Bernard Barusch, are these: "1.—It brought the issues involved home to the nation; 2.—It demonstrated the great difficulty of a solution; 3.—The discussions aroused public thought, and from that thought will come a solution of the industrial problem; 4.—The intimate relation of the farming interests to the industrial question was demonstrated; 5.—It was demonstrated that both capital and labor owe society quantity production at the lowest possible cost."

Steel Mills Will Employ No More Men at Present

(International News Service.)
CHICAGO, Oct. 25.—With steel mills in the Calumet district operating on a basis of about 75 per cent pay roll and 50 per cent production, no more men will be taken on until the coal strike situation is cleared up, mill officials announced today.

Labor Threatens General Strike

(Continued from Page 1.)

wage scale on a more equitable basis. Their judgment would undoubtedly be based upon a sum total of knowledge of the industry. Whatever their differences may be, no matter how widely divergent their viewpoints may be from each other, it is a duty that they owe society to make an earnest effort to negotiate those differences and to keep the mines of our country in operation.

After all the public interest in this vital matter is the paramount consideration of the government and admits of no other action than that of consideration of a peaceful settlement of the matter as suggested by you. If for any reason the miners and operators fail to come to a mutual understanding, the interests of the public are of such vital importance in connection with the production of coal, that it is incumbent upon them to refer the matter in dispute to a board of arbitration for determination and to continue the operation of the mines pending the decision of the board.

The cabinet went into session at the white house executive offices at 11 o'clock. It was stated that a statement might be issued by President Wilson, following the meeting. The first step on the part of the government will be the declaration that the miners are breaking a contract with the government, it was learned at the White House. The cabinet had before it the contracts made with the fuel administration, under which the miners agreed to work until the end of the war, or April 1920. The cabinet meeting began to break up shortly before 1 o'clock. Secretary Redfield, the first to leave, said "not a word" and walked hastily away.

Senator Thomas, democrat of Colorado, introduced a resolution in the senate today calling on the government to take adequate action in enforcing obedience and respect for the law and the constitution in the coal strike. No action was taken on the resolution.

"We charge that a full responsibility for whatever may be the result of the consequences must rest upon the operators," declared the statement issued by John L. Lewis, acting president of the United Mine Workers of America. "Knowing that the operators were dead set against the making of a new agreement, we knew that if both sides accepted the President's two propositions, one for negotiations and the other for arbitration, the operators would present a contract by negotiations and then throw the entire matter into arbitration. The public will soon understand the purpose of the operators in forcing the miners to strike, when the consumer finds coal prices soaring. They have already raised the price of coal a dollar a ton at the mines."

MEXICO MUST PAY JENKINS RANSOM

DEATH

Early Taylor, three-year-old son of Mr. and Mrs. R. J. Reynolds, died on Friday last, after a short illness at Fairview. Funeral was conducted from the family residence at 1 p. m. on Saturday, Rev. L. E. Hall officiating. Interment to take place at the city cemetery.

OLD SPINISTERS CONVENTION AT AUSTINVILLE
The High School pupils assisted by the faculty of Austinville rendered the old time favorite "Old Maid's Convention" to an overflowing house last evening. The proceeds which went beyond expectation go to school improvement. This was the first entertainment of a series planned to add several conveniences and comforts for the school.

MORGAN NATIONAL AWARDS CONTRACT FOR NEW INTERIOR

BUSINESS OF INSTITUTION HAS INCREASED 100 IN TWO YEARS.

The Morgan County National bank today awarded a contract to the Krueger manufacturing company, of Atlanta, Ga., for the entire remodeling of the bank's interior.

Within the past two years the business of the popular banking institution has increased more than 100%, causing the present arrangement of the banking room to be entirely inadequate to conveniently care for the public. Under the new arrangement of the interior, the working space will be greatly enlarged, providing several additional windows and an additional teller's cage.

The officer's desks will be moved to the front of the building. The new fixtures will be made of the same kind of marble as is in use now. The work will be started as soon as the material can be assembled and it is expected it will be completed by January 1.

Garth Gilchrist is in Jail at Moulton

Garth Gilchrist, arrested on the charge of murder in connection with the death of E. L. Wann, at Courtland, has been removed to the Lawrence county jail at Moulton, according to advices received by Solicitor Almon. Mr. Gilchrist was detained at his home under guard for some time following the tragedy, as he was suffering from wounds received during the pistol battle that took place on the cotton platform at Courtland.

It is now understood that the two Gilchests will remain in jail until the March term of the grand jury and will not seek to obtain their release on bond through habeas corpus proceedings.

Robbers Kill One Banker and Wound Another; Get \$9,000

(International News Service.)
BEAVER FALLS, Pa., Oct. 25.—Nearly 200 men are scouring the country near the Ohio line west of here today for the trail of bandits who yesterday looted the State Deposit Banks of this city of \$9,000, after killing a director and wounding the cashier. Thirteen members of the state constabulary are heading the posse. It is thought possible the robbers are hiding in an abandoned coal mine.

President Slowly Gaining Strength

(International News Service.)
WASHINGTON, Oct. 25.—The following statement was made from the white house today: "The president is slowly gaining strength."

Early Taylor, three-year-old son of Mr. and Mrs. R. J. Reynolds, died on Friday last, after a short illness at Fairview. Funeral was conducted from the family residence at 1 p. m. on Saturday, Rev. L. E. Hall officiating. Interment to take place at the city cemetery.

The proceeds which went beyond expectation go to school improvement. This was the first entertainment of a series planned to add several conveniences and comforts for the school.

DAILY WANT COLUMN; DAILY WANT COLUMN; DAILY WANT COLUMN

Moebe's List

The time to economize is when you have money and are making money—when you are without either, the question will take care of itself.
Spend your money for railroad fare and it is gone.
Spend your money for pleasure automobiles, they wear out, and it is gone, to say nothing of gasoline, tires and other up-keep.
Spend your money for (costly) beverages and it is gone.
Spend your money for extravagant living in any line and it is gone—never to return.
Spend liberally for charity and it is as bread cast upon the waters.
Spend your money for real estate and there is no chance to lose. You can get it back almost any day you want it, and with good returns. Should you have reverses and not want to dispose of your realty, you can always borrow money on it at a fair rate of interest.

880 acres very best grade of chocolate red land in lower part of Limestone County; 400 acres in cultivation. Several tenant houses. Here is a chance to get one of the best pieces of land in Limestone county at a bargain. If interested, see us at once.

800 acres of good productive land, 2½ miles from Tuskegee, Alabama; about 600 acres cleared, 200 acres in woods. Has about one million and half feet of timber, principally virgin pine. This farm has considerable improvement, including residence, barn and tenant houses. \$20,000.00 will buy it, \$10,000.00 of which can be carried for ten years.

160 acres good productive soil, principally red, 3 miles from Albany, all cleared and in cultivation but about 20. Farm is well fenced and has two sets of houses. Can be bought for \$60.00 per acre, part cash and terms.

A nice little farm, containing 80 acres of very strong lime land, 5 miles from Albany on pike, about 55 to 60 acres cleared and in cultivation. Plenty of everlasting water running through farm, a good residence, barn and tenant house. An ideal stock farm. \$75.00 per acre.

Some time last summer we had listed a small farm out from town. We showed this farm to a number of prospects, but all found objections. One man said the soil was cold, another said it was too sandy, and another thought it was not sandy enough, but all agreed that the price was too high. Just as our option was about to expire, we took it over ourselves. Two months later, one of the best farmers in the country thought \$2000.00 more of it than we did, and he took it.

Profiteering, was it? Well, we knew that the farm was worth more than we paid for it, and the man who bought it from us has done nothing but farm for the last fifty years, and he says that he sees a profit in his deal.

A little judgment, a little money, and a whole lot of confidence in your country and its future is all that is needed.

25 acres of good, rich, level land, 2 miles from Albany; all in cultivation. No houses but a good spring. \$125.00 per acre.

20 acres on state highway; 2 miles from Albany. All in cultivation. 125.00 per acre.

A 5-acre tract of red land with residence, outhouses and ample fencing; 1½ miles from Albany. Buy the improvements for what they are worth and you get the land for nothing, or buy the land at the present market price and improvements will cost you nothing. This is a good proposition for a small truck farm.

The man who depends on his enthusiasm to awaken him in the morning rather than an alarm clock never finds it necessary to make a kick about the way the world is "treatin'" him.

If you are in the market for a residence either in West Town, South Town, Central Town, Decatur or Fairview, we have some good values to show you.

NEW COUNTY COURT WILL RELIEVE CIRCUIT COURT OF HEAVY DOCKET

The new Morgan county court, created by the last legislature, and which will be presided over by Judge W. T. Lowe, of Decatur, recently appointed by Governor Kilby, will relieve the circuit court of much of its at present heavy docket, it was stated today. The county court will have concurrent jurisdiction with the circuit court over all cases involving sums of less than \$1,000, and also all misdemeanor cases. It will not have a grand jury, but persons indicted for misdemeanors will be tried before

the county court with a jury. The new court will be self-sustaining, as the law creating it provides that a filing fee of \$5.00 in criminal cases and \$3.00 in civil cases shall be paid, and this "entrance fee" is expected to more than offset the expenses of the court. Any sum in excess of the \$2,500 paid the judge and the \$1,800 paid the solicitor shall revert to the county. T. C. Almon, deputy circuit solicitor, automatically becomes the county solicitor, under the provisions of the act.

H. B. LUNCHEON CLUB

A new club has been organized and it is called the H. B. Luncheon club. This organization grew out of the Knitting club that during the late world struggle met once a week and knitted garments that kept many a soldier warm nor would they leave off the work now if knitting was necessary. This club will meet the second and fourth Wednesdays of the month, the first meeting to be held with Mrs. E. H. Allison. Guess what "H. B." means?

DANCE FOR THE VISITING FOOTBALL TEAM

The bunch entertained the Sheffield football team at a dance last evening at the residence of Mr. and Mrs. L. H. Bullard.

TELETTE BUCHANAN ENTERTAINS

On Friday evening, at the residence of her parents, Dr. and Mrs. R. M. Buchanan, their daughter, Telette, entertained for a few friends. Music and games were the features. At a late hour tempting ices were served. Her guests were Marjorie Beard, Christine Almon, Mary Jarvis, Virginia Almon, Lucy Thomas, Roberts, Earl Parker, Robert Warren, Robert Holt, Robert Nebrig, George Harvey, A. Q. Edmundson.

Mrs. R. G. Cortner, Mrs. W. B. Smith and Mrs. C. E. Elliott are expected to return from Atlanta today.

Clyde and Lola Nichols entertained with an informal dance last evening at the home of their parents, Mr. and Mrs. S. I. Nichols.

Mesdames Binford, Donnell and Bullard will entertain at bridge on both Thursday and Friday of next week.

Mrs. Prentiss Blackwell of Florence will be the guest next week in the Binford home.

Moulton Heights' B. Y. P. U. gave an entertainment on Friday night at the home of Mr. and Mrs. J. C. Nelson's when the following were present: Johnie Herdon, Elmer Ashford, Gertrude Ashford, Lucile Kelly, Chas. Rowden, Nell Rowden, Pauline Compton, Worley Tanner, Mable Glover, Elsie Davis, Jack Davis, E. H. Henderson, Myrtle Johnson, Dessie Eubanks, Shellie Eubanks, Mildred Byars, W. M. Moles, Vivian Jolly, Paul Bussy, Pettus Bussy, Earl Barnes, Duncan Williams, Paul Miller, Homer Chambers, Rile Alexander, Edith Alexander, Tinsley Yarbrough, Ruth Nelson, Thurmond Ashford, Mrs. Jessie Johnson, Mr. and Mrs. Eddie Ashford.

The occasion was an enjoyable one. Games were played and refreshments served.

Mrs. D. W. Speake will entertain the Missionary Society of the Central Methodist church at her residence on Johnston street, Monday afternoon at 3 o'clock.

Mrs. J. H. Doinell has returned from an extended visit to Nashville friends.

The Missionary society of the First M. E. Church, Decatur will hold an all day meeting with Mrs. Clyde Hendrix on Monday, the session beginning at 11 o'clock. Mesdames J. T. Jones, G. M. Davenport and S. D. Johnson will be the leaders.

The Albany Community Sing Fund has been turned over for the use of the Albany High School Library, by the secretary, Miss Bassett, who was Chairman for the County Community Sing and as secretary of the Albany association, has turned the fund over to the Superintendent of the Albany Schools.

Mr. and Mrs. J. I. Chrissinger returned today from Nashville, where Mrs. Chrissinger underwent a successful operation for removal of her tonsils. Mr. and Mrs. Chrissinger will be with Mr. and Mrs. Allison for the next few days.

Mrs. R. H. Hockett and daughter, Miss Garnett Hockett, of Courtland, were here today.

Mrs. L. C. Gilbert of Rising Fawn, Ga., is visiting her sister, Mrs. Samuel Blackwell.

Mrs. J. W. Cobb has returned from Birmingham.

Mr. and Mrs. Prentiss Blackwell, returning from their honeymoon, spent several days with Mrs. Samuel Blackwell en route to Florence.

Mrs. H. Y. Jordan of Athens, Ala., is the week end guest of Mrs. M. L. Hardage and Mrs. R. T. Sheppard.

PERSONAL

Edgar Nichols of Birmingham will spend the week end with his parents, Mr. and Mrs. S. I. Nichols.

H. N. Binford has recovered from a severe malarial attack.

W. T. Roberts of Belle Mina was here yesterday on business.

J. M. Robinson, who is in the employ of the government, has been transferred to the south side of the Wilson dam at Muscle Shoals, Ala.

Vernon Blankenship, carrier for the Albany-Decatur Daily at Fairview is ill at his home.

Judge Jno. C. Eyster has returned from Montgomery.

T. C. Almon is in Nashville today to witness the Auburn-Vanderbilt football game.

T. Whitlow of Trinity Route 1 was in the city today.

Hands of Clock Turn Back an Hour Sunday

(Continued from Page 1.)

an amendment to the Agriculture Appropriation bill repealing the law, and the House repealing bill was permitted to await President Wilson's action on the Agriculture bill. The President vetoed the Agricultural appropriation bill July 11 because of the daylight saving law repeal rider, and sent Congress a special message urging continuation of the law.

Three days later, July 14, there came a test of the influence of the President and of opponents of the law in the House on a motion to override the veto, but the President was sustained by a vote of 247 to 135, and the attempt to override the veto failed by twenty-three votes less than the necessary two-thirds majority. After many threats the Senate accepted the decision of the House and re-enacted the Agricultural Appropriation bill without the objectionable rider, sending it back to the President, by whom it was approved.

On August 1 the Senate, recurring to its fight against the daylight saving law, passed the House bill which had been passed by the House June 18, and it was sent to the President. This bill was vetoed by the President August 15, and on August 19 the House passed the bill over the veto by a vote of 223 to 101, or twenty-two more than the necessary two-thirds majority. The following day, August 20, the Senate overrode the veto by a vote of 57 to 19, and the repeal immediately became a law to be enforced on the last Sunday in October or October 26.

COUNTY HIGH TRIMS ST. BERNARD ELEVEN

HARTSELLE, Ala., Oct. 25.—(Special)—Morgan County High continued its winning streak Friday by defeating St. Bernard college on the local gridiron by the score of 25 to 6. Despite the fact that High got the long end of the figures, the game was stubbornly contested and was featured by many spectacular plays. Levy, for St. Bernard, Rountree, Britnell, P. Orr and Burleson, for High, starred.

Hindu Children Mechanics.
Hindu children are remarkable for their precocity. Many of them are skillful workmen at an age when the children of other nations are learning the alphabet. A boy of seven may be a skillful wood carver, while some of the handsomest rugs are woven by children not yet in their teens.

Just So.
Save daylight as we may, night always arrives in dew time.

Etiquette of Walking.
When, in the street, especially in daytime, a lady is not supposed to take a gentleman's arm, unless she is infirm or elderly, though she may properly do so at night. When walking with two ladies a gentleman may walk on the outside, or the inside, or, rather, the side from which he can best guard his companion or companions from obstacles or danger. It is not good form to take a lady's arm, unless to assist her in some way.

ATTENTION, ALBANY PEOPLE

Those Opposing Consolidation Under Lynne Bill as Passed Did Not Try to Defeat it, But to Amend It.

We are informed that petitions have been lodged with the Probate Judge seeking an election for the consolidation of Albany and Decatur, and it has been frequently charged in the public press and elsewhere that those opposed to consolidation undertook to thwart the efforts of those who were seeking to pass a bill through the Legislature giving the people of the two cities the right to vote on the question, and since consolidation is now an immediate issue, we wish to contradict these charges in this statement.

The undersigned were a committee selected to go to Montgomery while the Legislature was in session and sponsor certain amendments to the consolidation bill, and in obedience to our selection, we did go and did undertake to get our representatives to amend the bill, and we lodged with Mr. Lynne written suggestions of the way we desired the bill amended, but none of these amendments were incorporated into the bill.

Our efforts were devoted towards a plan which would have made a vote on the question much easier to secure. We sought to have the bill amended in nine particulars, and we will briefly explain these amendments, which explanation will point out the deficiencies in the bill as it now stands, and which deficiencies could have been obviated by the adoption of the amendments offered, or similar ones.

1. We sought to have section two of the bill amended in such a way that an election could be called upon the petition of ten per cent of the qualified voters of the two cities, and to have this section provide that the election must be called within ninety days after the passage of the bill. We further suggested that the bill provide that, if an election was once held, and the issue of consolidation was defeated, that no subsequent election could be held until after the expiration of one year, and not then unless a majority of the qualified electors of the two cities petitioned for the election. Any reasonable man is bound to admit that the bill should have been amended in these respects.

2. We sought to have section three amended so as to allow the voters the right to vote upon the name of the consolidated city. To have allowed the people the right to vote upon the name would have been democratic; to deny them the right to do so, as was done, was little short of autocratic.

3. We endeavored to have section six amended so as to provide that the temporary organization of the consolidated city should be composed of fifteen councilmen, including, or with the president, and that ten of these members should come from Albany and five from Decatur. This is about in proportion to the population of the two cities, and especially the white population.

4. We next sought to have section seven amended so as to provide that not less than ten members of the temporary council should constitute a quorum, and that the council be directed to elect a mayor without reference to his place of residence. We fail to see why Albany should have been discriminated against, and why the bill provides that the Mayor must come from Decatur.

After we had lodged our suggested amendments with Mr. Lynne, section seven of the bill was amended, but not in the way we suggested, but in a way that is patently unfair to Albany, and we want to explain this amendment and its effect.

The public is well aware of the fact that under the bill as originally drafted, Albany and Decatur had an equal representation in the temporary council, with a chance of Decatur having the majority. When this fact was exposed section seven was amended so as to provide that the existing councils of the two cities should compose the temporary council of the consolidated city. If those in charge of the bill had stopped after amending Section Seven to this end, it would not have been so bad, but section seven was further amended, so that it now reads:

"Section 7. Be it further enacted that at such first meeting, or some adjournment thereof, the said city council may be called to order by the president of the council of the larger city, but if he shall be absent, or shall fail to act, then by the mayor of the smaller city, but if he shall also be absent, or fail to act, then by the mayor of the larger of such constituent cities, but if he shall be absent or shall fail to act, then any councilman or alderman may call the meeting to order. The first meeting shall proceed to elect a president of the council, who shall be a resident of the larger constituent city, upon whose qualification the term of the former president shall cease, and the council shall then proceed to elect a mayor, who shall be a resident of the small constituent city, upon whose qualification the term of the former mayor shall cease, provided that no officer shall be elected and no ordinance shall be passed unless voted for by two-thirds of the combined members of the two constituent and consolidated towns."

The readers of the "Daily" have had it stated to them in season, and out of season, that the new council, under the Lynne Bill, would be composed of the members of the present councils of the cities of Albany and Decatur—Albany with nine and Decatur with five members. This is true, but every publicity agent of the Lynne Bill has failed to explain to the people the all important fact that Albany's nine members are powerless to move an inch because their hands are tied by the obnoxious two-thirds majority vote, which the Lynne Bill requires before an ordinance can be passed. We are informed that this obnoxious two-thirds majority rule of vote was written into the bill upon the motion or suggestion of a gentleman from Decatur, and manifestly it was written into the bill for the express purpose of rendering impotent the majority membership in the council which Albany will have in the temporary organization, and we will cite two concrete cases to illustrate this fact.

Suppose, when the new council is organized, some Albany councilman, or alderman, should introduce an ordinance providing for the location of the city hall in or at the present Albany city hall, and suppose upon the final passage of this ordinance the nine Albany members should vote for it, but the Decatur members should vote against it, or simply refrain from voting. What would become of the ordinance? It would be lost because it failed to receive the necessary two-thirds vote of the combined council. To further illustrate, suppose some Albany member should introduce an ordinance with a preamble stating the generally realized fact that unless competent fire equipment or apparatus is maintained in what is now Albany, that our insurance rates will be increased, and then suppose, in the ordaining part of the ordinance, it is provided that adequate fire equipment shall be maintained in what is now Albany, and suppose this ordinance received the nine Albany votes, and suppose these nine Albany votes were the only votes cast for it. What would become of the ordinance? It would be lost because it failed to receive a two-thirds majority of the combined vote of the council.

To some this may seem queer, but to these we will say, we are dealing with a queer law. Some may say that a two-thirds majority means two-thirds of those voting, or those present. To these we will say that section seven says there must be a two-thirds vote of the combined membership of the city council of the two constituent cities. The word "combined" means all the members composing the temporary organization. It does not mean the members present or the members actually voting. You need not take the word of any one for this but you can take the word of our courts in construing the provisions of section 1252 of the municipal code, which provides that no ordinance shall be passed unless a majority of the members elected to the council shall vote for it. The higher courts of this state have held that under this section, an ordinance must receive a majority of the votes of all the members elected to the city council before it is passed. So, Albany's majority membership in the council is not more powerful than Decatur's minority. In fact, Decatur's membership in

the council can defeat the passage of any ordinance by voting against it, or by declining to vote at all, and Albany's majority in the council cannot pass an ordinance although they vote unanimously for it.

No doubt some will say that the temporary organization, or the temporary council, will only last until September, 1920, when a new council will be elected. Let us pursue this suggestion, and see what can happen. Section 16 of the Lynne Bill provides:

"Section 16. Be it further enacted that the city council shall divide the territory of the consolidated city into such number of wards as it may determine, provided the said wards shall be as nearly equal as practicable, and the population of each shall be as nearly equal as practicable, and at the next regular election two councilmen shall be elected from each ward.

How can the city be divided into wards? By ordinance and by ordinance alone. Suppose one of Albany's aldermen propose an ordinance dividing the city into wards, and all nine of the Albany members vote for it, but it receives no other vote. What becomes of it? It is lost or consigned to the two-thirds scrap heap. If the city council should dead-lock on dividing the city into wards, which it is very likely to do, what will then happen? The consolidated city would have no wards. It, consequently, will have no election for aldermen in 1920, and the temporary councilmen will hold over. The temporary council will, therefore, not only be permanent but perpetual. This should show just how queer the bill is.

5. We next sought to have section eleven of the bill amended so as to provide for the election of a public school board for the consolidated city. Section eleven is very vague and indefinite, and it is hard to determine whether or not the consolidated city will have two school boards or none at all. Laws should be specific and definite when dealing with the question of public schools.

6. We also sought to have section thirteen amended so as to provide that a vacancy in office should be filled by a majority of the members elected to the council. Section thirteen of the bill is in the following language:

"That in case any officer or councilman whose appointment, selection or election is provided for by this act shall fail to qualify, or shall die, or shall resign, a majority of the acting and qualified members of the council shall, irrespective of number, constitute a quorum to supply all such official positions."

Under this section, if five members of the council from Albany should resign or refuse to qualify, then Decatur with her five members would have a majority of the remaining members and they could elect five additional aldermen, or fill five vacancies, and thus have a two-thirds majority in the council.

7. The seventh amendment suggested referred to section sixteen of the bill, and by this, we sought to have the consolidated city divided into seven wards, not less than four of which should be carved out of the territory of Albany, and to provide for the carving or creation of one or more wards from territory within both cities. This is one of the serious points in the question of consolidation, and the temporary council will, no doubt dead-lock on this one point. If the temporary council does not dead-lock on this point, then the Albany contingent in the council will have to concede something; that is, they will have to concede or give way some of the rights of Albany.

8. The next amendment which we undertook to have incorporated into the bill is the most vital of all, and it is indeed of vital importance to all parents and children of Albany. By this, we sought to have the bill amended so as to provide that Decatur should have at least one public school for its white children, and that Albany should have four, and that the high school should be permanently located and established in Albany. Since this vitally important amendment was not incorporated into the bill, after attention was called to it, and since the bill is silent as to the location of the public schools, we have a right to assume that it is the intention and purpose to disturb the location of our schools. In fact, we have heard it said that one of the leading exponents of consolidation, who does not live in Albany stated sometime ago that the high school should be located near the gas plant, presumably to allow the students to inhale the elegant aroma which is emitted from this plant. We warn the people against taking any promises, or accepting any explanation as to the future location of the schools. If it is not the purpose or intention to interfere with their location at some future time, then the bill on this point would have been made so plain as that even a wayfarer could have interpreted it in the dark. This means too much to the people for them to listen to, much less be misled, by any promises or explanations. There is no answer, and can be no answer, for the failure to provide for the location of the schools in the bill.

9. By the ninth amendment, we sought to have the city hall permanently located within the corporate limits of Albany. Some may ask where the city hall will be, under consolidation. The bill is silent on this point, and Albany's nine aldermen can't locate it, and we suppose Heaven alone knows. The mayor, under the temporary organization, who must come from Decatur, will be the chief executive officer of the consolidated city, and as such, it stands to reason that he will maintain the executive offices in the city of Decatur, and in the city hall of that city. Who among us thinks he will not?

This statement is written to refute the statement heretofore made that an attempt was made to thwart the passage of this bill, and to show that those who doubt the wisdom of consolidation under the present scheme, sought to have the bill amended to secure to Albany the rights to which it is entitled, and which it should have before it is consolidated with Decatur.

Respectfully,

JOHN PATTERSON,
E. M. ODOM,
TENNIS TIDWELL,
D. C. ALMON

Committee.

Construction Plans Seek Completion

(Continued from Page 1.)

Specifications of the new bridge, while not entirely completed, call for the construction of a bridge of concrete and steel, with space for vehicles, pedestrians and an interurban electric railway line.

Spans in the bridge are to be 112 feet and 6 inches apart. The draw will be 400 square feet in width. There will be two channels for river traffic, approximately 180 feet clear width. The floor level of the bridge will be 35 feet from low river stage. The bridge will cost approximately \$650,000.

The exact site of the bridge is not specified and will be left to the government engineers. The southern end, however, will be inside the corporate limits of Albany-Decatur. Under the terms of their proposal, Col. Dean's syndicate agree to bear all costs of making preliminary surveys and other costs necessary for obtaining the approval of the United States war department for building the bridge and to pay the salaries of the bridge company's directors secretary-treasurer and attorney for their services during the first year of the company's existence.

Stockholders in the bridge project will be secured by indemnity bonds for twice the amount of the estimated cost of building the bridge.

Col. Dean's Proposition. TO THE LIMESTONE-MORGAN BRIDGE COMPANY: Gentlemen:

In behalf of Messrs. Calvin Tichenor of Atlanta, Georgia, Wm. M. Torrance of Savannah, Georgia, H. C. Boggs of Albany and Decatur, Alabama, and myself, of Rome, Georgia, acting as attorney for the parties named, I make you the following proposition for building a concrete highway and interurban railway bridge across the Tennessee River, at Decatur, Alabama, same to be a toll bridge.

We will cause to be constructed such a bridge substantially in accordance with the conditions, specification and description herewith delivered marked "Limestone-Morgan Bridge."

For which construction, and for our services in marketing the securities and promoting the enterprise as hereinafter mentioned, we or our assigns to receive from you \$650,000.00 of your stock and bonds or the proceeds thereof, same to be issued by you as follows: \$150,000.00 of stock, \$350,000.00 of first mortgage 6% bond, and \$150,000.00 of second mortgage 7% bonds. The bonds to be secured by good and valid liens on the bridge and approaches, with the usual terms and conditions specified in the lien contracts. This to be your total of stock and bonds, prior to the completion of the bridge, except with our consent. We to have the marketing of all these securities; you to issue the stock and bonds in amounts and to purchasers as and when designated by us; if the same are not paid for in full at the time of issue you to retain a lien thereon until the purchase price in full has been paid.

Within ninety days after \$300,000.00 of the securities have been sold, and a permit has been obtained from the United States Government for proceeding with the construction of the bridge, and rights of way have been obtained on the banks of the River, a lot for the bridge Keeper's house has been secured, and a valid contract or arrangement made for connecting the bridge by good and sufficient public highways with the present public highway on each side of the River; (all of these rights, lot, and contract or arrangements, you are to assist in securing), we will cause to be executed a good and valid contract between you and the Carson Construction Company, of Savannah, Georgia, or some other solvent and reliable construction company or individual for the building of the bridge on terms as stated herein. At the time of making such contract the contractor will make and deliver to you a good and valid security bond in the sum of \$650,000.00 conditioned for the faithful performance of the contract. The security on such bond to be a guarantee company authorized to make such bonds under the laws of Alabama. We to have the right at any time to cause such a contract and bond to be made, regardless of whether \$300,000.00 of securities have been sold.

Until the making of the contract for the construction of the bridge and the giving or the security bond, all funds and securities taken for the sale of your stock and bonds shall be received and held by you on deposit, in such banks or trust companies as you may designate, except as sales are made of such securities we will be permitted to retain from the cash received 5% on the amount of the respective sales as made; the same to be used by us without restriction, except that from this fund we will pay the expenses of advertising and otherwise promoting the sale of securities, the expense of making preliminary surveys and other cost necessary for securing the approval of the U. S.

War Department for building the bridge and the salaries of your Directors, Secretary-Treasurer and attorney for their services rendered you during the first year of your corporate existence as may be understood and agreed upon.

Upon the execution and delivery of the construction, contract and surety bond whenever made, the proceeds of the sales of your securities including cash, interest and securities in your hands and the unsold securities shall be delivered, as we by written order may direct; it being understood that so much of said assets as may be necessary will be used to indemnify the surety company for making the bond.

The terms herein expressed to be subject to minor changes and fuller details as may be hereafter agreed upon when the formal contract is prepared for execution between the parties hereto.

Respectfully submitted,

CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadorsville, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before."

I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape."

I cannot say too much for Black-Draught for it is the finest laxative one can use."

Thedford's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects, it has won the praise of thousands of people who have used it.

This Medicine Has Cured Thousands—It May Cure You

Mr. L. P. England, a reliable citizen of Spartanburg, S. C., makes the following statement: "About twelve years ago I suffered with a severe spell of malaria and afterward was much troubled with rheumatism. I tried many remedies recommended for the rheumatism but failed to get relief amounting to anything. I saw Number 40 For The Blood advertised and purchased a bottle and found so much relief that I have taken several bottles and am well of the rheumatism. I keep Number 40 in the house all the time as I do not wish to be without it." Number 40 is demanded in blood-poisoning from any cause. In chronic rheumatism, catarrh, constipation, stomach and liver troubles. Under its use eczema and skin disease disappear, sore ulcers and boils are caused to heal. Made by J. C. Mendenhall, Evansville, Ind., 40 years a druggist.

Albany Wins Over Sheffield Bunch

(Continued from Page 1.)

entire Albany team swept over the Sheffield interference and three men tackled Gustin for another loss of 10 yards. Albany's ball.

On a delayed pass, Alexander made 20 yards through the line of scrimmage.

Alexander shot a forward pass to Lamon, who went over for Albany's first touchdown. Alexander kicked goal.

Albany kicked off to Sheffield, who returned 25 yards. Gustin added 25 more through the Albany line. With the ball on Albany's 15 yard line and one minute to play, Sheffield tried another line buck without success and the half ended.

Second Half

Sheffield kicked to Albany. On the first play Alexander netted two yards through the line. Two attempted passes failed. Albany punted. Sheffield gained 35 yards through the line, Albany's secondary defense bringing the back down. Gustin made 15 more but was called back. Sheffield being offside. Sheffield penalized 5 yards. Alexander intercepted a forward pass. Albany's ball.

Carr was thrown for a loss on an attempted end run.

An attempted pass failed. Royer netted a short gain with a pass, but the next attempt failed. Sheffield's ball. The Albany defense held and the ball went over after Sheffield failed to make first down, Carr tackling the Sheffield back for a loss.

Albany's ball. Carr and Alexander netted short gains on line bucks. Alexander hurled a 30 yard pass to Royer, who made the local's second touchdown. Alexander failed to kick goal.

Albany kicked to Sheffield. Gustin ran the ball back 15 yards. A forward pass netted the visitors 16 yards, Sheffield tried another pass and was tackled behind the line for a loss. Gustin gained 5 through the line and the quarter ended.

Sheffield tried the line to open the last quarter and failing the ball went over.

Albany made first down, Carr Alexander and Royer bucking the line. Sheffield intercepted a pass. Gustin ran 35 yards around left end but was called back, a teammate being offside. On the next play he made 15 around end. A line buck netted a short gain then Sheffield fumbled and Albany recovered. The game ended with the ball in Albany's possession in the middle of the field.

Score:
Sheffield 0 0 0 0—0
Albany 0 7 6 0—13

CHURCH OF GOD TO BUILD PARSONAGE

Upwards of one year ago we had no place of worship in this town that we could call our own. Therefore we as a body feeling the need of a place of worship, and our duty in helping promote the Kingdom of God and the cause of Christ, set about to build a house of worship, which house we built on the corner of Sixth avenue and Fourth street South. At this place we have just closed a revival meeting which proved to be a great success for the Lord, somewhere about thirty souls were added to the church. Soon we expect to begin building a parsonage on the lot joining the church. Any one wishing to help on this building may communicate with W. F. Sartor or J. C. Conley, Deacons.

We have regular service each Sunday and we invite you to come and worship with us. Sunday school at 10 a. m. Preaching at 11 a. m. and 7 p. m. L. E. HALL, Pastor.

How to Prevent the Flu

NOW is the time to do the utmost to prevent another such epidemic of the Flu as the one of last year.

YOU can reduce your chances of taking the Flu by keeping your living surroundings clean, and better still, by keeping your system strong and healthy, so that you will have enough natural power to resist the germs which cause this disease.

Systone is the Medicine

to make your system strong and healthy, and a strong and healthy system will go far towards preventing the Flu. It aids the system in performing the natural functions which make a healthy body.

A lazy liver and bad stomach cause many diseases, and particularly the Flu, Colds and Grippe. These organs must be kept free from bile and poisons or the person is liable to catch most any disease. D. & D. SYSTONE will put them in perfect working order. A few doses and you will be surprised at the amount of poison it will work from your body.

DON'T WAIT until you are sick in bed. Get a bottle of SYSTONE today and stay out of the sick-bed.

Your druggist will gladly refund your money if it does not satisfy you.

No Food Shortage Here Is Prediction of Hoover

(International News Service.) — SAN FRANCISCO, Oct. 25.—If over supply reduces the market, cheer up.

Herbert Hoover said here in an address that there is a greater abundance of staple foods in public warehouses of the United States today than there has been for five years past. Central Europe's demand on this supply will never be great enough to cause a shortage in this country, he predicted.

With this supply and the coming harvest there will be in the United States an excess of staple of between 15,000,000 and 20,000,000 tons, said Hoover.

POLICEMAN LOST 65 POUNDS THRU STOMACH TROUBLE

Flat on His Back and Could Not Get Up—Unable to Do His Work for Three Years.

"My stomach and kidneys gave me the worst kind of trouble for three years," says G. W. Walton, police officer, of 2525 19th St., Ensley, Alabama. "I was able to work only two months in three years. Finally I got down on my back in bed and could not move without the greatest exertion. My kidneys were continually out of order. There was a peculiar dead feeling in my stomach and bowels and I lost 65 pounds. I was under the care of doctors and took treatments and medicines. I commenced to take Sulfero-Sol and took one bottle. Before I got through with it I began to improve and improved right along. I kept taking it until I was as well as ever. I work regularly every day, have regained most of my weight and feel fine all the time. The pains in my kidneys and back have ceased and my stomach and bowels are usually normal. If ever they feel a bit dull and sluggish, I take a dose or two of Sulfero-Sol and it fixes me up. I have never taken any medicine from any doctor since I first began using Sulfero-Sol. Several of my friends have used it upon my recommendation and they have thanked me for telling them about it."

For kidney and bladder troubles, stomach and bowel disorders, take Sulfero-Sol, the wonder medicine. Be sure your druggist gives you Sulfero-Sol. Accept no substitutes.
\$1.00 per bottle; 6 bottles for \$5.00.
Sulfero-Sol Co., Montgomery, Ala.

WESTSIDE CHURCH WILL BE HOSTS TO SYNODICAL SOCIETY

A hundred delegates are expected to attend the meeting of the Alabama Synodical Society, which convenes for a two day session at the Westside Presbyterian church, October 28-29.

Tungsten generally is called wolfram in Portugal and is sold by the mines as tungsten trioxide on the basis of its richness in tungstic acid. The production has been from 900 to 1,500 tons a year, as near as can be ascertained.

London Divorce Courts Have Docket 2000 Case One Out of Every 8

(International News Service.)
LONDON, Oct. 25.—The Fall docket of London's divorce courts, which opened a few days ago, contained almost 2,000 cases. The largest previous docket was 800 cases, but according to an attorney who will appear for one hundred of the petitioners, London is more moral today than it was "in the good old days."

"One hears many remarks such as 'Oh, with so much divorce about people must be less moral,' says Mr. Figur, the new champion divorce lawyer. "My experience goes to show that, far from that being the case, the people are far more moral than they were in the good old days."

In those good old days, Figur says, the humdrum existence of the married was accepted, while today the spirit of the times dictates an effort at saving the rest of the life from unhappiness and misery through divorce.

"One of the chief contributory factors in the present rush for divorce is the facility with which people rush into hasty alliances without giving thought to the fact that after all there is a serious—and a very serious—side to it all."

Half of the present docket is composed of so-called "poor person cases," which are dealt with by a department under A. H. Hassard-Short. He has been receiving twenty applications a day. Since his department was established in 1914 he has dealt with 18,000 applications and of these 90 per cent has resulted in divorce.

Many Airplanes Sold to Individual Owners

(International News Service.)
BUFFALO, N. Y., Oct. 25.—Over 500 airplanes have been sold and delivered to individual owners since March, 1919, and the reason more have not been delivered is that the manufacturers cannot produce faster, says the Aerial Age Weekly, in denying the statement that there is no future in commercial aviation. The demand is as great for \$7,500 pleasure airplanes as it is for \$2,500 airplanes. An Aerial Age advertiser had one airplane to sell and wanted \$7,500 for it. He sold it and had a score of prospective customers to spare.

Mystery solved.
Mrs. A: "You say you kept a cock for a whole night in a box in the world did you manage it?" Mrs. B: "We were cruising on a houseboat and she couldn't swim."

He Threw Calomel Away
Wm. S. Prince of Birmingham, Ala., writes: "I was suffering with indigestion, biliousness and kidney trouble. I tried calomel and the doctors for about a month. Finally I tried DR. THACHER'S LIVER AND BLOOD SYRUP and the first bottle relieved me very much. I am now well and well, can eat anything."
